Subject: thank you!

Dearest David, Tammy, Louis, Mario and all,

We would like to take this opportunity to thank everyone for the beautiful cabinetry and granite that has made our kitchen simply stunning! We would like to invite you to come see, take pictures, and by all means, use our name for any future references. We truly appreciate all your hard work, dedication, and patience you put into this project...and it all shows in this wonderful end result!

We enjoyed working with you and look forward to our next (bathroom) project,
